Objective

Enthusiastic Computer Science Engineering student and Frontend Developer Intern with a strong foundation in full-stack web development. Skilled in ReactJS, Node.js, Java, and SQL databases, with a proven track record of engineering scalable platforms like a University Management System. Passionate about writing clean code, building user-friendly applications, and contributing effectively to agile, collaborative engineering teams.

Education

YBN UNIVERSITY

Bachelor of Technology in Computer Science

Ranchi, Jharkhand

2023–Present

VIVEKANANDA VIDYA MANDIR

Intermediate

Ranchi, Jharkhand

2021–2023

VIVEKANANDA VIDYA MANDIR

Matriculation

Ranchi, Jharkhand

2020–2021

Skills

Core CS: OOP, Systems Design, Computer Network, Linux/UNIX, Operating System

Programming Languages: C, C++, Java, Python, JavaScript,

Liberries: Pandas, NumPy, SKLearn,

Development Technologies: HTML5, CSS3, ReactJS, Node.js, Redux, MS-SQL, MY-SQL, Postgress SQL

CloudDevOps: Git, GitHub, Azure (Microsoft)

Tools: VS Code, Git, GitHub, IntelliJ IDEA, CodeBlocks, OverLeaf, Figma, Jupiter Notebook, Linux

Soft Skills: Creativity, Problem-Solving, Time Management, Critical Thinking

Experience

Eimple Labs

Frontend Developer Intern

Remote

June,2023–Present

- Developing responsive and interactive user interfaces using modern frontend technologies.
- Building RESTful APIs using Node.js and Express.js for seamless backend integration.
- Managing databases with MySQL and optimizing queries for better performance.
- Ensuring security best practices for both frontend applications.

Working on University Management System: Designed and developed a web-based platform using ReactJS, Node.js,MySQL.

- Implemented automated tracking all records management.
- Developed performance analysis tools to monitor academic progress.

Projects

Research on Explainable AI: Developed a framework to improve the interpretability of machine learning models, making AI decisions more transparent and understandable. Focused on techniques like SHAP values, LIME, and model-agnostic explainability to bridge the gap between complexity and human comprehension.

Extra-Curricular Activities

Active member of a coding club at YBN University.

Organised a UI/UX design Competition for or college students.
